EAGLE Model 2172

SPEAKER/MICROPHONE
SURFACE & SEMI-FLUSH MOUNT

THE FIRST SPEAKER/MICROPHONE TO PROVIDE BOTH THE CONVENIENCE OF SURFACE MOUNTING AND THE ESTHETICS OF SEMI-FLUSH MOUNTING.

Many manufacturers offer speakers with surface mounting or semi-flush mounting. The new Eagle 2172 Speaker/Microphone offers both mounting preferences built into one package! New sleek styling provides dealers with a more attractive look than previously available.

The new Eagle 2172 Speaker/Microphone features the Model 2172 Microphone for use with all Terminator series two way audio modules for all your two way voice and listen-in applications. Additionally, the Model 2172 provides a recessed location for private labeling for organizations desiring a custom and proprietary look.

The Model 2172 is shaped like and is similar in size to many popular keypads offered today providing system uniformity. Additionally, the unit comes in off white for maximum versatility.

The Model 2172 Microphone features two wire connections with standard cabling. Shielded cabling not required on runs less than 100 feet. The speaker element has a power rating of 20 Watts at 8 ohms.

The latest revision of the 2172 Microphone features a quick connect terminal block for maximum versatility!
